August 8, 2019

Dear Parents,

This year your eighth-grade student will be taking Physical Science, which requires an End of Course Milestone Assessment (EOC). The EOC will be given on either April 27 or 28, 2020 and will count as 20% of each student's course average. The EOC score will also be recorded on their high school transcript.

It is our goal to help every Riverwatch student be as successful on the EOC as they can. The questions on this assessment require a deeper level of understanding and are designed to measure a student's ability to apply their knowledge in ways that are different than assessments students have seen previously. As Physical Science teachers, we incorporate instructional strategies to help students prepare for this test. One option available to students is the Georgia Physical Science EOC practice book. This book exposes our students to higher level questions which are similar to what they will see on the EOC. Currently, each Physical Science classroom utilizes a class set of practice books, but sometimes parents express a desire to purchase a personal copy. If you would like to purchase an EOC practice book for your child's personal use, you may purchase one through the school. Purchase of the book is completely optional.

The cost of each book is \$22. It you would like to order your child an EOC practice book, log in to your account at mypaymentsplus.com. You must order your copy by Friday, Nov. 29th. Books will be ordered on Monday, Dec. 2nd and NO LATE PAYMENTS WILL BE ACCEPTED.

Child's Name _____
*first and last (please **PRINT**)*

Science Teacher: Cook Jacoby Hunziker Osborne

Thank you for your order! This is a wonderful resource for your child.
