

The  
Technology  
Student  
Association  
enhances personal  
development,  
leadership, and  
career  
opportunities in  
STEM, whereby  
members apply  
and integrate  
these concepts  
through  
extracurricular  
activities,  
competitions, and  
related programs.

# Technology Student Association

Learning to lead in a technical world

## What is TSA?

The Technology Student Association is a national, non-profit organization of middle and high school students who are engaged in science, technology, engineering, and mathematics. Since TSA was chartered in 1978, almost 4,000,000 student members have participated through challenging competitions, leadership opportunities, and community service.

## What Does TSA Offer?

The Technology Student Association is a national organization of students engaged in science, technology, engineering and mathematics. Members learn through exciting competitive events, leadership opportunities and much more. The diversity of activities makes TSA a positive experience for every student. TSA takes the study of STEM beyond the classroom and give students the chance to pursue academic challenges among friends with similar goals and interests.

“TSA successfully engages students in captivating experiences in which they can gain opportunities to advanced their skills and proficiencies in varying leadership roles and engineering fields.” – Yadu Sunil, TSA Secretary at West Forsyth High

## The Technology Student Association’s Creed

I believe that Technology Education holds an important place in my life in the technical world. I believe there is a need for the development of good attitudes concerning work, tools, materials, experimentation, and processes of industry. Guided by my teachers, artisans from industry, and my own initiative, I will strive to do my best in making my school, community, state, and nation better places in which to live. I will accept the responsibilities that are mine. I will accept the theories that are supported by proper evidence. I will explore on my own for safer, more effective methods of working and living. I will strive to develop a cooperative attitude and will exercise tact and respect for other individuals. Through the work of my hands and mind, I will express my ideas to the best of my ability. I will make it my goal to do better each day the task before me, and to be steadfast in my belief in my God, and my fellow Americans.

The engineering program at West Forsyth High is comprised of four core courses:

- ❑ Foundations of Engineering and Technology
- ❑ Engineering Concepts
- ❑ Engineering Applications
- ❑ Research and Design

## West Forsyth TSA Offers a Variety of Activities

- ❑ TSA State Leadership Conference
- ❑ Technology Day
- ❑ Leadercon
- ❑ Vex Robotics
- ❑ First Robotics Competition
