INDEPENDENT AUDITOR'S REPORT

**To the Superintendent and Members of
the Forsyth County Board of Education
Cumming, Georgia**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Forsyth County Board of Education** as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Forsyth County Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Forsyth County Board of Education as of June 30, 2021, and the respective changes in financial position and the budgetary comparison for the General Fund and Federal Programs Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note P, the Forsyth County Board of Education implemented Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, as of July 1, 2020. This standard significantly changed the accounting for the Forsyth County Board of Education's fiduciary activities. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Proportionate Share of Net Pension Liability – Teachers Retirement System of Georgia, Schedule of Contributions – Teachers Retirement System of Georgia, Schedule of Proportionate Share of Net Pension Liability – Public School Employees Retirement System of Georgia, Schedule of Proportionate Share of the Net OPEB Liability – School OPEB Fund, and the Schedule of Contributions – School OPEB Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Forsyth County Board of Education's basic financial statements. The combining fund statements, the schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, and the accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund statements, the schedule of expenditures of special purpose local option sales tax proceeds, and the schedule of expenditures of federal awards (collectively the "supplementary information") are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Governmental Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 24, 2022 on our consideration of the Forsyth County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Forsyth County Board of Education's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Forsyth County Board of Education's internal control over financial reporting and compliance.

FORSYTH COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

INTRODUCTION

Our discussion and analysis of the Forsyth County School District's ("School District") financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2021 are as follows:

- On the district-wide financial statements, the assets and deferred outflows of resources of the School District exceeded liabilities and deferred inflows of resources by \$63.0 million.
- The School District had approximately \$650.0 million in expenses relating to governmental activities; only \$303.9 million of these expenses are offset by program specific charges for services, grants and contributions. General revenues (primarily property and sales taxes) of \$344.3 million were adequate to provide for these programs.
- As stated above, general revenues accounted for \$344.3 million or 53.1% of all revenue, which was \$648.2 million. Program specific revenues in the form of charges for services, grants and contributions accounted for the remaining revenues.
- Net position for the School District decreased by approximately \$1.8 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts; management's discussion and analysis, the basic financial statements and supplementary information. The basic financial statements include two levels of statements that present different views of the School District. These include the district-wide and fund financial statements.

The district-wide financial statements include the Statement of Net Position and Statement of Activities. These statements provide information about the activities of the School District presenting both short-term and long-term information about the School District's overall financial status.

The fund financial statements focus on individual parts of the School District, reporting the School District's operation in more detail. The Governmental Funds statements disclose how basic services are financed in the short-term as well as what remains for future spending. The fund financial statements reflect the School District's major funds. In the case of the Forsyth County School District, the General Fund, Capital Projects Fund, Federal Programs Fund, and the Debt Service Fund are reported as major funds.

FORSYTH COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. Additionally, other supplementary information (not required) is also presented that further supplements understanding of the financial statements.

District-Wide Statements

The District-Wide financial statements are basically a consolidation of all of the District's operating funds into one column called governmental activities. In reviewing the District-Wide financial statements, a reader might ask the question, are we in a better financial position than last year? The Statement of Net Position and the Statement of Activities provides the basis for answering this question. These financial statements include all of the School District's assets and deferred outflows of resources and liabilities and deferred inflows of resources and use the **accrual basis of accounting** similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and any changes in the net position. The change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the results of many factors, including those not under the School District's control, such as the property tax base, facility conditions, required educational programs and other factors.

The Statement of Net Position and the Statement of Activities reflects the School District's governmental activities.

Fund Financial Statements

The School District uses many funds to account for a multitude of financial transactions during the fiscal year. However, the fund financial statements presented in this report provide separate columns of detailed information about only the School District's major funds.

Governmental Funds - Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the **modified accrual basis of accounting**, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds are reconciled in the financial statements.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting these services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. Net cost of services can be defined as the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost reflects the financial burden on the School District's taxpayers by each activity.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The governmental funds had total revenues and other financing sources of approximately \$686.9 million and total expenditures and other financing uses of \$764.6 million.

Major Funds:

General Fund

The General Fund is the operating fund of the District. Revenue from state and federal sources accounted for 47.9% of the districts revenues. The other 52.1% is from local sources, primarily ad valorem taxes.

The student population of the district continues to grow. There was an increase in FTE of 1,380 when comparing state QBE allotment sheets for fiscal years 2020 and 2021.

FORSYTH COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Capital Projects Fund

The Capital Projects Fund is used to account for school construction and improvement projects. Special Purpose Local Option Sales Tax (SPLOST) and Capital Outlay funds made up the majority of the 2021 revenues. SPLOST funds were transferred to the Debt Services Fund for the payment of bonds which were designated in the SPLOST referendum.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources and payments of principal and interest for general obligation bond issues of the District. Ad valorem taxes make up the majority of revenues in the Debt Services Fund. The Debt Services millage rate remained at 2.418 mills in fiscal year 2021.

Federal Programs Fund

The Federal Programs Fund is used to account for federal and state funded grants, which are used by the District for specific educational goals as specified per the grant agreements. Federal grants make up the majority of revenues within the fund, and the majority of expenditures incurred relate to salaries and payroll benefits paid to teachers.

General Fund Budgeting Highlights

The School District's budget is prepared according to Georgia Law. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2021, the School District amended its General Fund budget as needed. The School district uses site-based budgeting as a part of the budget process. The budgeting systems are designed to control total site budgets but provide flexibility for the site management.

For the General Fund, the budget basis revenues and other financing sources of approximately \$503.2 million were more than the original budgeted amounts of approximately \$471.7 million by approximately \$31.5 million.

Total budget basis actual total revenues had approximately a \$26.1 million favorable variance when compared to the final budgeted revenue total.

The budget basis actual expenditures of approximately \$477.7 million were less than the original budgeted amount of approximately \$496.2 million by approximately \$18.5 million.

The budget basis actual expenditures had a \$23.6 million favorable variance when compared to the final budgeted expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At fiscal year ended June 30, 2021, the School District had approximately \$1,102 million invested in capital assets, all in governmental activities. Capital assets increased by approximately \$97.3 million over the balance at June 30, 2020.

Note F reflects a summary of these balances net of accumulated depreciation.

FORSYTH COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

At June 30, 2021, the School District's assigned bond ratings is "AAA" as determined by Standard and Poor's Rating Services and "Aaa" by Moody's Investor Services, Inc. making it one of only two school districts in the State of Georgia to have a AAA rating from both agencies.

CURRENT ISSUES

Currently known facts, decisions or conditions that are expected to have a significant effect on financial position or results of operations are as follows:

Locally, the value of the ad valorem tax digest has shown slowed growth in the last few years. For fiscal year 2020 the digest showed an increase of 8.63% and for fiscal year 2021 it shows an increase of 4.42%.

Capital Improvements - The School District plans capital improvements as future capital needs arise due to increased student population and facility repair and maintenance needs. Specific capital expenditure plans are formalized in conjunction with individual general obligation bond issues, anticipated annual receipts of capital outlay funds from the State of Georgia Department of Education and collections from the Special Purpose Local Option Sales Tax. The School District regularly monitors anticipated capital outlay needs.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mr. Larry Hammel, Chief Financial Officer at Forsyth County School District, 1120 Dahlonega Highway, Cumming, Georgia 30040. FORSYTH COUNTY BOARD OF EDUCATION
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ (77,721,456)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlay exceeded depreciation expense is as follows:

Capital outlay	\$ 138,820,106	
Depreciation expense	<u>(41,538,872)</u>	97,281,234

The net effect of the disposal of capital assets is to decrease net position.

Net book value of assets sold		(23,295)
-------------------------------	--	----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.

Property taxes	\$ (746,465)	
Federal and state grants	<u>(131,414)</u>	(877,879)

In the governmental funds, current year expenditures related to pensions and OPEB are comprised solely of amounts contributed to the plan for the current year. However, in the statement of activities, expenses related to pensions and OPEB include amounts that do not require the use of current financial resources. This amount represents the difference in the required accounting treatment of pensions, OPEB, and related items.

(59,243,864)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments	\$ 37,501,130	
Amortization of bond premium	10,444,806	
Amortization of deferred loss from refunding	(754,431)	
Issuance of long term debt	<u>(7,553,783)</u>	39,637,722

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Claims payable	\$ 489,181	
Change in accrued interest		
Accrued interest payable, June 30, 2020	9,627,799	
Accrued interest payable, June 30, 2021	<u>(10,930,750)</u>	<u>(813,770)</u>

Change in net position - governmental activities	\$	<u><u>(1,761,308)</u></u>

FORSYTH COUNTY BOARD OF EDUCATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Forsyth County Board of Education (the “School District”) have been prepared in conformity with accounting principles generally accepted in the United States of America (“USGAAP”) as applicable to governmental units. The more significant of the School District's accounting policies are summarized below.

Reporting Entity

The School District is governed by an elected five member board (the “Board”). Board members are elected by the public and have the authority to make decisions, the power to approve selection of management personnel, the ability to significantly influence operations, and the primary accountability for fiscal matters. The Board determines the millage rate at which school taxes are levied and may incur bonded indebtedness with voters’ approval. The School District has no component units.

Government-wide and Fund Financial Statements

The School District’s financial statements have been prepared in accordance with the Governmental Accounting Standards Board Statement 34 - *Basic Financial Statements 95and Management’s Discussion and Analysis for State and Local Governments*.

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the School District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. However, the School District does not consider any of its activities to be business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide governmental activities and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Property taxes are recognized as revenue in the period for which they were levied, if they are collected within sixty days of year end. All other revenues are also considered to be available when they are collectible within one hundred and eighty days of year end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, are recorded only when payment is due.

Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid, funding the academic school year expenditures. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriations for cash management purposes. By June 30 of each year, the State of Georgia has a signed appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, and the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

Property taxes, sales taxes, grant revenue, state Quality Basic Education (QBE) revenue and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation – (Continued)

The School District reports the following major governmental funds:

The General Fund is the School District's primary operating fund. The General Fund is used to account for all financial transactions of the School District except those required to be accounted for in another fund.

The Capital Projects Fund accounts for resources which are used exclusively for acquiring school sites, constructing and equipping new school facilities, and renovating existing facilities. The major inflows are sales taxes and bond proceeds.

The Debt Service Fund accounts for the accumulation of resources for, and the payment of general long-term debt principal, interest, and related costs. The primary revenue sources are local property taxes levied specifically for debt service.

The Federal Programs Fund accounts for federal and state funded grants. These grants are awarded to the School District for the purpose of accomplishing specific educational tasks as defined in the grant agreements. This fund also contains several locally funded programs whose expenditures are limited to specified purposes.

Additionally, the School District reports the following fund types:

The special revenue funds are used to account for school activity funds and school food service operations.

The effect of interfund activity has been eliminated from the government-wide financial statements.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reported as nonspendable as this amount is not available for general appropriation.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Inventories

Inventories of the General Fund and School Food Services Fund are stated at cost using the first-in, first-out method. Donated food commodities are recorded at their federally assigned value at the date of donation. The School District utilizes the consumption method to recognize inventory usage. Under the consumption method, inventories are recorded as expenses/expenditures when used rather than when purchased.

Interfund Receivables and Payables

During the course of its operations, the School District makes transfers between funds to finance operations, provide services, acquire assets and service debt. To the extent that certain transfers between funds had not been received as of year end, balances of interfund amounts receivable or payable have been recorded.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Capital Assets

Capital assets, which include property, plant and equipment, are reported in the governmental activities in the government-wide statement of net position and depreciated over their estimated useful lives in the government-wide statement of activities. Capital assets are defined by the School District as assets with an initial, individual cost of \$10,000 and useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. However, all additions to land and buildings are capitalized. Items such as furniture and computer equipment purchased in groups costing more than \$10,000 are capitalized by type as a group. Donated capital assets are recorded at estimated acquisition value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are not capitalized.

Property, plant and equipment is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20-40
Buildings	25-50
Building improvements	10-30
Vehicles	8-15
Equipment	5-20

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Compensated Absences

Vacation leave must be used in the fiscal year in which it is earned. Accordingly, there is no liability for vacation leave at year end.

Sick and personal leave does not vest with the employee and unused accumulated sick and personal leave is forfeited upon retirement or termination of employment. Therefore, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bond using the effective interest method. Bond issuance costs are reported as expenses in the period during which the debt is issued.

In the fund financial statements, the face amount of debt issued, as well as any premium, is reported as other financing sources. Issuance costs, whether or not withheld from actual proceeds, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has two items that qualify for reporting in this category. The first item, which arises only under a modified accrual basis of accounting, is for the unavailable revenues from property taxes and state grants. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and state grants, as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The other item that qualifies for reporting in this category occurs only in the governmental activities. The Governmental Activities report (1) a deferred inflow of resources for experience gains or losses from periodic studies by the actuary, which will be amortized over the remaining service period; and (2) a deferred inflow of resources for the changes in actuarial assumptions in relation to the OPEB plan which will be amortized over the remaining service period.

Deferred Outflows/Inflows of Resources – (Continued)

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has several items that qualify for reporting in this category. One is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt. The other items all relate to the reporting of the net pension and net OPEB liability reported in the government-wide statement of net position. Governmental Activities report (1) a deferred outflow of resources for the District's actual contributions to the pension plan during the fiscal year ended June 30, 2021 which are subsequent to the measurement date of the net pension liability and will be recognized in fiscal year 2022; (2) a deferred outflow of resources for experience gains or losses related to the pension plan which will be amortized over the remaining service period; (3) a deferred outflow of resources for the changes in actuarial assumptions in the net pension liability and net OPEB liability that will be amortized over the remaining service period; (4) a deferred outflow of resources for the change in the District's proportionate share based on actual contributions towards the pension plan, which will be amortized over the remaining service period; (5) a deferred outflow of resources for the District's actual contributions to the OPEB plan during the fiscal year ended June 30, 2021 which are subsequent to the measurement date of the net OPEB liability and will be recognized in fiscal year 2022; (6) a deferred outflow of resources for the change in the District's proportionate share based on actual contributions towards the school OPEB plan, which will be amortized over the remaining service period; and (7) a deferred outflow of resources for the net difference between projected and actual investment earnings on the pension and OPEB assets, which will be amortized over a five year period.

Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities and deferred inflows of resources under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- ***Nonspendable*** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

FORSYTH COUNTY BOARD OF EDUCATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Fund Equity - (Continued)

- ***Restricted*** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Board or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- ***Committed*** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Board members through the adoption of a resolution. Only the Board Members may modify or rescind the commitment, also through a resolution.
- ***Assigned*** – Fund balances are reported as assigned when amounts are constrained by the Board’s intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board Members have authorized the Board’s Superintendent and Chief Financial Officer to assign fund balances.
- ***Unassigned*** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The Board reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the School District’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the School District’s policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Position – Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the School District has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position balances are reported as unrestricted.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position balances are available.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees Retirement System of Georgia (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund (School OPEB Fund) and additions to/deductions from the School District OPEB Fund's fiduciary net position have been determined on the same basis as they are reported by the School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows and inflows of resources, and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

NOTE B - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The School District adopts an annual budget for its General Fund, all special revenue funds, and the Debt Service Fund. The budget is prepared in accordance with provisions of the Quality Basic Education Act, OCGA Section 20-2-167. After the Board of Education has tentatively adopted the budget, the budget is advertised at least one time in a local newspaper of general circulation. At the next regular meeting of the Board after advertisement, the budget is revised as necessary and adopted as the final budget.

NOTE B - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – (CONTINUED)

The School District employs encumbrance accounting. However, all appropriations lapse at year end and encumbrances are rebudgeted in the subsequent year.

The following functions had excess of actual expenditures over appropriations in the amount shown for the fiscal year ended June 30, 2021:

General Fund:	
Support services:	
Pupil services	\$ 88,632
Instructional staff training	323,801
General administration	19,400
School administration	372,649
Business administration	341,687
Food service operations	205,275
Federal Programs Fund:	
Support services:	
Improvement of instructional services	44,306
General administration	255
Maintenance and operation of plant	190

These over expenditures were funded with savings in other functional expenditures.

Budgetary/GAAP Basis Reconciliation

In the General Fund, accounting principles used in developing the budget on a budgetary basis differ from those used in preparing financial statements in conformity with generally accepted accounting principles (GAAP). The following table includes the items that were not considered in the budget period and are needed to reconcile the General Fund budget to the amounts reported in accordance with GAAP.

The accounting basis difference between the budget and actual Statement of Revenues, Expenditures and Changes in Fund Balances in the General Fund is reconciled as follows:

Actual Revenues GAAP Basis	\$ 504,268,780
Community Service Activity (not budgeted)	(1,230,115)
Actual Revenues, Budgetary Basis	<u>\$ 503,038,665</u>
Expenditures GAAP Basis	\$ 478,880,571

NOTE C - DEPOSITS AND INVESTMENTS

Total deposits as of June 30, 2021 are summarized as follows:

Investment	Weighted Average Maturity	Fair Value
Deposits with Financial Institutions	---	\$ 177,028,486
Georgia Fund 1 - cash equivalents	36 days	106,028,812
Total cash and cash equivalents - Statement of Net Position		\$ 283,057,298

Composition

Cash consists of deposits (including certificates of deposit, savings accounts and interest bearing checking accounts) in authorized financial institutions. Georgia Law authorizes the School District to deposit its funds in one or more solvent banks, insured federal savings and loan associations, or insured state chartered building and loan associations. The placement of proceeds from bond issues in certificates of deposits is limited to financial institutions located within this state.

The local government investment pool, “Georgia Fund 1” created by OCGA 36-83-8 is a stable asset value investment pool, which follows Standard and Poor’s criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool’s primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants’ shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair market value as of year-end and the School District’s investment in Georgia Fund 1 is reported at fair value.

Increases or decreases in the fair value during the year are recognized as a component of interest income.

Interest rate risk. The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTE C - DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial credit risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be covered by depository insurance or pledged securities. Amounts that exceed standard depository insurance limits are required to be collateralized either (1) individually by the financial institutions through pledged obligations of the U.S. Government, obligations backed by the full faith and credit of the U.S. Government, obligations of the State of Georgia or other states, or obligations of counties, municipalities, or public authorities of the State of Georgia, or (2) participation in the State of Georgia Secure Deposit Program. As of June 30, 2021, the financial institution holding all of the District's deposits is a participant of the State of Georgia Secure Deposit Program, which is administered by the Office of the State Treasurer, and requires participating banks holding deposits of public funds to pledge collateral at varying rates depending on the tier assigned by the State. As of June 30, 2021, all of the District's bank balances were insured and/or collateralized as defined by GASB and required by State Statutes.

Credit risk. State statutes and the District's policies authorize the District to invest in obligations of the State of Georgia or other states, obligations issued by the U.S. Government, obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States, obligations of any corporation of the U.S. Government, prime bankers' acceptances, the local government investment pool established by state law, repurchase agreements, and obligations of other political subdivisions of the State of Georgia. The District does not have a credit rating policy which provides restrictions or limitations on credit ratings for the District's investments.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the District does not disclose its investment in the Georgia Fund within the fair value hierarchy.

			<u>\$ 514,595,000</u>

In the fiscal year 2013, the School District issued \$134,715,000 of general obligation refunding bonds, Series 2013, for the purpose of advance refunding a portion of the balance of the Series 2005 general obligation bonds. The bonds were issued on May 16, 2013 with a premium of \$30,949,906 and interest rates ranging from 4% to 5%. General obligation bonds are direct obligations and pledge the full faith and credit of the government. The reacquisition price exceeded the net carrying amount of the old debt by \$9,053,171. This amount is being amortized over the remaining life of the refunding bonds. The refunding was undertaken to reduce total debt service payments by \$24,593,775 and resulted in an economic gain and a present value cash flow of \$22,128,494. The proceeds from the refunding bonds were placed into trust, along with certain amounts held in sinking funds, to pay the principal and interest on the refunded bonds as they become due. The amount of outstanding bonds that is considered defeased at June 30, 2021 was \$81,085,000.

Intergovernmental Payable from Direct Borrowing

On July 1, 2016, the Forsyth County Public Facilities Authority (the “PFA”) issued Revenue Bonds (Forsyth County School District Project), Series 2016 in the aggregate principal amount of \$25,320,000. The proceeds from the sale of the Series 2016 bonds were used for the purpose of (a) financing the acquisition, construction and equipping of a high school and (b) paying the costs of issuing bonds.

The Series 2016 bonds are limited obligations of the PFA payable solely from amounts paid to the PFA pursuant to an intergovernmental contract, dated as of July 1, 2016, between the PFA and the District. Under the contract, the PFA agreed to issue the Series 2016 bonds and remit payment of the proceeds from the sale of the bonds to the District. This payment totaled \$30,293,992 when the proceeds from the bonds (less the costs of issuance) were combined with the original issue premium of \$4,973,992. The District has agreed to (a) acquire, construct, equip and operate the high school, (b) pay the PFA amounts sufficient to enable the PFA to pay the debt service on the Series 2016 bonds, and (c) levy an ad valorem property tax, limited to 20 mills, on all property in the District subject to such tax in order to make the payments to the PFA. Accordingly, the District has recorded the outstanding principal balance of the Series 2016 bonds as an intergovernmental payable to the PFA.

The bonds bear interest at rates ranging from 2.0% - 5.0% and interest payments are due on February 1 and August 1 of each year, commencing on February 1, 2017. Principal payments are due annually, also commencing on February 1, 2017 until the bonds mature in 2031. The District’s debt service requirements to maturity on the intergovernmental payable are as follows:

Fiscal Year				
Ending June 30,	Principal	Interest	Total

Total	<u>\$ 7,044,763</u>	<u>\$</u>	<u>446,779</u>	<u>\$ 7,491,542</u>

As of June 30, 2021, the School District has various computers with original cost of \$15,955,967 and accumulated depreciation of \$6,134,394 which are currently financed under a financed purchase agreement. The current year amortization expense for the assets is included in the depreciation expense for capital assets.

NOTE H - INTERFUND TRANSACTIONS

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Interfund transactions as of the year ended June 30, 2021 are as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Federal Programs	\$ 8,687,975
General Fund	Nonmajor Govt Funds	4,000
		<u>\$ 8,691,975</u>

This advance from the General Fund to the School Activity Fund is the result of the General Fund advancing funds for start-up operating costs for school activities at the new schools. The balance is expected to be repaid in annual installments equal to one-fifth of the balance over the next five years. Interfund advances as of the year ended June 30, 2021 are as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Nonmajor Govt Funds	\$ 1,012,895

NOTE J - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The School District is self-insured for workers' compensation and unemployment claims. The School District purchases commercial insurance for all other risks of loss. Settled claims have not exceeded purchased commercial insurance coverage in any of the past three years. There was no significant reduction in insurance coverage since last fiscal year.

Workers' Compensation Claims

The School District is self-insured for workers' compensation claims. The School District accounts for workers' compensation claims in the General Fund. Workers' compensation claims expenditures and liability are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported and related claims administration expenses. Changes in the workers' compensation claims liability during the last two fiscal years are as follows:

Unemployment Claims

The School District is self insured with regard to unemployment compensation claims. These claims are accounted for in the School District's General Fund. Unemployment compensation expenditures and liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported and claims administration expenses. Changes in the unemployment compensation liability during the last two fiscal years are as follows:

General Information About the Teachers Retirement System of Georgia (TRS)

Plan description: All teachers of the School District as defined in §47-3-60 of the Official Code of Georgia Annotated (O.C.G.A.) and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

Benefits provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00 % of their annual pay during fiscal year 2021. The School District's contractually required contribution rate for the year ended June 30, 2021 was 19.06% of annual School District payroll. District contributions to TRS were \$53,046,599 for the year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the School District reported a liability for its proportionate share of the net pension liability that reflected a reduction for support provided to the School District by the State of Georgia for certain public school support personnel. The amount recognized by the School District as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the School District were as follows:

School District's proportionate share of the net pension liability	\$ 514,807,347
State of Georgia's proportionate share of the net pension liability associated with the School District	<u>288,022</u>
Total	<u><u>\$ 515,095,369</u></u>

The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2019. An expected total pension liability as of June 30, 2020 was determined using standard roll-forward techniques. The School District's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2020. At June 30, 2020, the School District's proportion was 2.125203%, which was an increase of 0.052840% from its proportion measured as of June 30, 2019.

Actuarial assumptions: The total pension liability as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2019 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00 – 8.75%, average, including inflation
Investment rate of return	7.25%, net of pension plan investment expense, including inflation
Postretirement benefit increases	1.50% semi-annually

Post-retirement mortality rates for service retirements and beneficiaries were based on the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. Post-retirement mortality rates for disability retirements were based on the Pub-2010 Teachers Mortality Table for Disabled Retirees (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. The Pub-2010 Teachers Headcount Weighted Below Median Employee mortality table with ages set forward one year and adjusted 106% was used for death prior to retirement. Future improvement in mortality rates was assumed using the MP-2019 projection scale generationally. These rates of improvement were reduced by 20% for all years prior to the ultimate rate.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018, with the exception of the long-term assumed rate of return on assets (discount rate), which was changed from 7.50% to 7.25%, and the assumed annual rate of inflation, which was changed from 2.75% to 2.50%, effective with the June 30, 2018 valuation.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the table on the following page.

Discount rate: The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District’s proportionate share of the net pension liability to changes in the discount rate: The following presents the School District’s proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the School District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

General Information About the Public School Employees Retirement System (PSERS)

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/financials.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of \$15.25, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees.

Pension Liabilities and Pension Expense

At June 30, 2021, the School District did not have a liability for a proportionate share of the net pension liability because of the related State of Georgia support. The amount of the State's proportionate share of the net pension liability associated with the School District is as follows:

State of Georgia's proportionate share of the Net Pension Liability associated with the School District	\$ <u>5,268,470</u>
--	---------------------

The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2019. An expected total pension liability as of June 30, 2020 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the School District was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2020.

For the year ended June 30, 2021, the School District recognized pension expense of \$1,060,196 and revenue of \$1,060,196 for support provided by the State of Georgia.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increase	N/A
Investment rate of return	7.30%, net of pension plan investment expense, including inflation
Postretirement benefit increase	1.50% semi-annually

Postretirement mortality rates were based on the RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) for the period after service retirements and for dependent beneficiaries. The RP-2000 Disabled Mortality projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the system. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Deferred Compensation Plan

Beginning January 1, 1996, the School District established a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The Plan is available to all employees who are not eligible to participate in the Teachers' Retirement System of Georgia and permits them to defer a portion of their salary until future years. Participation in the Plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

Contributions to the Plan are invested exclusively in annuity contracts issued by the Variable Annuity Life Insurance Company (VALIC) and any other life insurance companies approved by the School District for use in the Plan and approved for sale in Georgia in the employees' name. The assets are held by VALIC and not recorded in these financial statements.

The School District will match eligible participants' contributions up to 4% of their salary. Employee annual contributions are limited to maximums established by Internal Revenue Service guidelines. For the years ended June 30, 2021, 2020, and 2019, the School District contributed \$400,516, \$355,905, and \$329,282, respectively, to the Plan on behalf of its employees. For the years ended June 30, 2021, 2020, and 2019, employees contributed \$533,035, \$559,077, and \$525,809, respectively, to the plan.

NOTE L - CONTINGENCIES AND COMMITMENTS

Grant Programs

The School District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies.

Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School District has not complied with the rules and regulations governing the grants, refunds of any amounts received may be required and the collectibility of any related receivable at year-end may be impaired. In the opinion of the School District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

Litigation

The School District is a defendant in certain legal actions in the nature of claims for alleged damages to persons and property and other similar types of actions arising in the course of School District operations. The School District has determined some of these cases are probable of a loss. The School District has recorded a liability of \$176,765 for contingent liabilities that are probable of loss.

Commitments

The School District has outstanding construction commitments of \$24,883,617 as of June 30, 2021. This amount is not reflected in the basic financial statements.

Georgia School Personnel Employees Postemployment Health Benefit Fund

Plan Description: The Board participates in the State of Georgia School Employees Postemployment Benefit Fund (the "School OPEB Fund") which is an other postemployment benefit (OPEB) plan administered by the State of Georgia Department of Community Health (DCH). Certified teachers and non-certified employees of the Board as defined in §20-2-875 of the Official Code of Georgia Annotated (O.C.G.A.) are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund of the State of Georgia and administered by a Board of Community Health (DCH Board). Title 20 of the O.C.G.A. assigns the authority to establish and amend the benefit terms of the group health plan to the DCH Board. The School OPEB Fund is included in the State of Georgia Annual Comprehensive Financial Report which is publicly available and can be obtained at <https://sao.georgia.gov/statewide-reporting/acfr>.

Benefits: The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

Contributions: As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions required and made to the School OPEB Fund from the Board were \$9,718,804 for the year ended June 30, 2021. Active employees are not required to contribute to the School OPEB Fund.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the Board reported a liability of \$378,154,509 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2020. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2019. An expected total OPEB liability as of June 30, 2020 was determined using standard roll-forward techniques. The Board’s proportion of the net OPEB liability was actuarially determined based on employer contributions to the School OPEB Fund during the fiscal year ended June 30, 2020. At June 30 2020, the Board’s proportion was 2.574639%, which was an increase of 0.084218% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the Board recognized OPEB expense of \$23,311,075. At June 30, 2021, the Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on OPEB plan investments	\$ 985,614	\$ -
Changes in proportion and differences between Board contributions and proportionate share of contributions	33,371,726	-
Changes in plan assumptions	62,538,357	33,647,618

Board contributions subsequent to the measurement date	9,718,804	-
Total	\$ 106,614,501	\$ 74,930,349

Board contributions subsequent to the measurement date of \$9,718,804 are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30:	
2022	\$ 773,885
2023	747,434
2024	2,041,298
2025	6,248,176

Actuarial assumptions:

The total OPEB liability as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2019 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020:

Inflation	2.50%
Salary Increases	TRS – 3.00-8.75%, including inflation PSERS – N/A
Long-term expected rate of return	7.30%, compounded annually, net of investment expense, and including inflation
Healthcare cost trend rate:	
Pre-Medicare eligible	7.00%
Medicare eligible	5.25%
Ultimate trend rate	
Pre-Medicare eligible	4.50%
Medicare eligible	4.50%
Year of ultimate trend rate	
Pre-Medicare eligible	2029
Medicare eligible	2023

Mortality rates were based as follows:

- For TRS Members: The Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree Mortality Table projected generationally with the MP-2019 projection scale (set forward one year and adjusted 106%) is used for death prior to retirement and for service retirements and beneficiaries. The Pub-2010 Teachers Mortality Table for Disabled Retirees projected generationally with the MP-2019 Projection scale (set forward one year and adjusted 106%) is used for disability retirements. For both, rates of improvement were reduced by 20% for all years prior to the ultimate rate.
- For PSERS Members: The RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) was used for the period after service retirement and for beneficiaries of deceased members. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for the period after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB. There is a margin for future mortality improvement in the tables used by the plan.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the pension systems, which covered the period ending July 1, 2013 – June 30, 2018, with the exception of the assumed annual rate of inflation which was changed from 2.75% to 2.50%, effective with the June 30, 2018 valuation.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2019 valuation were based on a review of recent plan experience done concurrently with the June 30, 2019 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the Board and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Beginning in fiscal year 2018, the school OPEB fund updated their investment strategy to a more long term approach. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset class</u>	<u>Target allocation</u>	<u>Long-term expected real rate of return*</u>
Fixed income	30.00%	0.53%

NOTE N - POSTEMPLOYMENT BENEFITS – (CONTINUED)

Discount rate:

The discount rate has changed since the prior measurement date from 3.58% to 2.22%. In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 2.22% was used as the discount rate. This is comprised mainly of the yield or index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA or higher (2.21% per the Bond Buyers Index). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2118. Based on these assumptions, the OPEB plan’s fiduciary net position was projected to be available to make OPEB payments for inactive employees through year 2026. Therefore, the calculated discount rate of 2.22% was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Board’s proportionate share of the net OPEB liability to changes in the discount rate:

The following presents the Board’s proportionate share of the net OPEB liability calculated using the discount rate of 2.22%, as well as what the Board’s proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.22%) or 1-percentage-point higher (3.22%) than the current rate:

	1% Decrease (1.22%)	Current discount rate (2.22%)	1% Increase (3.22%)

FORSYTH COUNTY BOARD OF EDUCATION

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Teachers Retirement System of Georgia:

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

On November 18, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

On May 15, 2019, the Board adopted recommended changes from the smoothed valuation interest rate methodology that has been in effect since June 30, 2009, to a constant interest rate method. In conjunction with the methodology, the long-term assumed rate of return in assets (discount rate) has been changed from 7.50% to 7.25%, and the assumed annual rate of inflation has been reduced from 2.75% to 2.50%.

In 2019 and later, the expectation of retired life mortality was changed to the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table from the RP-2000 Mortality Tables. In 2019, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

Public School Employees Retirement System of Georgia:

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females).

On March 15, 2018, the Board adopted a new funding policy. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation. In addition, based on the Board's new funding policy, the assumed investment rate of return was further reduced by 0.10% from 7.40% to 7.30% as of the June 30, 2018 measurement date.

School OPEB Fund:

Changes of benefit terms: In the June 30, 2010 actuarial valuation, there was a change of benefit terms to require Medicare-eligible recipients to enroll in a Medicare Advantage plan to receive the State subsidy.

Changes in assumptions: In the June 30, 2012 actuarial valuation, a data audit was performed and data collection procedures and assumptions were changed.

In the June 30, 2015 actuarial valuation, decremental and underlying inflation assumptions were changed to reflect the Retirement Systems' experience studies.

The June 30, 2017 actuarial valuation was revised, for various factors, including the methodology used to determine how employees and retirees were assigned to each of the OPEB funds and anticipated participation percentages. Current and former employees of state organizations (including technical colleges, community service boards and public health departments) are now assigned to State OPEB fund based on their last employer payroll location; irrespective of retirement affiliation.

In the June 30, 2019 actuarial valuation, decremental assumptions were changed to reflect the Teachers Retirement Systems experience study.

SPECIAL REVENUE FUNDS

SCHOOL ACTIVITY

The School Activity Fund is used to account for funds collected primarily through the fund raising efforts of the individual schools. Each school's principal is responsible, under the authority of the School District, for collecting, controlling, disbursing, and accounting for his or her school's funds. All resources of the fund, including any earnings on invested resources, have been committed by the Board of Education to be used to support the schools' activities.

SCHOOL FOOD SERVICES

To account for the monies and commodities received from the federal and state governments and the School Food Service's cafeteria sales which are restricted for the purpose of maintaining the School District's breakfast, lunch, and snack programs.

II. SINGLE AUDIT SECTION

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**To the Superintendent and Members of
the Forsyth County Board of Education
Cumming, Georgia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Forsyth County Board of Education, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Forsyth County Board of Education’s basic financial statements, and have issued our report thereon dated February 24, 2022. Our report includes a reference to the change in accounting principle resulting from the implementation of Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Forsyth County Board of Education’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Forsyth County Board of Education’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Forsyth County Board of Education’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Forsyth County Board of Education’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

**To the Superintendent and Members of
the Forsyth County Board of Education
Cumming, Georgia**

Report on Compliance for Each Major Federal Program

We have audited the Forsyth County Board of Education's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Forsyth County Board of Education's major federal programs for the year ended June 30, 2021. The Forsyth County Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Forsyth County Board of Education's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Forsyth County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Forsyth County Board of Education's compliance.

Opinion on Each Major Federal Program

In our opinion, the Forsyth County Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Forsyth County Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Forsyth County Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Forsyth County Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

STATUS OF PRIOR YEAR FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

2020-001 Revenue and Related Receivables

Condition: For the fiscal year ended June 30, 2020, a material audit adjustment was required to properly report intergovernmental revenue and related receivables.

Context/Cause: During our testing of QBE state intergovernmental revenues and related receivables, we noted that the Board did not record an austerity reduction to reduce overall QBE earnings and its related receivable.

Current Status: This finding was resolved in fiscal year 2021.

2020-002 Recording of Financed Purchase

Condition: For the fiscal year ended June 30, 2020, a material audit adjustment was required to properly record the issuance of a financed purchase.

Context/Cause: During our testing of debt, we noted that the School District had not recorded the capital outlay and other financing sources in the Capital Projects Fund for its issuance of a financed purchase in fiscal year 2020.

Current Status: This finding was resolved in fiscal year 2021.
