

**8/9/21**

Weekly COVID positive reports will be posted on the district website each Friday, beginning August 13.

The following additional mitigation strategies have been implemented K-12:

- Whenever possible/feasible, schools should keep students spread out during lunch and avoid holding large indoor gatherings.
- All curriculum nights will be virtual.
- When face-to-face meetings are essential, schools should have attendees social distance to the extent possible.
- Field trips that have already been approved may continue, but no new field trips will be scheduled until further notice. Trips that are curriculum-related, such as Junior Achievement and CTAE, may continue.
- Nonessential visitors are not permitted inside schools. We will still allow mentors, student teachers, and others who are there to support curriculum/instruction.

Athletics and outdoor events will continue as scheduled.
