## Math Club & Science Olympiad

### Math Competition Team

Our math competition team is open for all 4th - 5th grade students to try out. Our team will have 30 students, selected by the mathematical strength that they demonstrate. The competitions are mainly held during our Tuesday meetings with a few of the competitions held on Saturday mornings at local schools. If your child is interested in trying out for the KME Math Club, please complete the [Google Form](#) on or before **Friday, August 24th**.

Tryouts for the math competition team will be held on **Tuesday, August 28th** after school until 4:00 p.m. Parents should plan on picking up their child at 4:00 in the bus lanes. The members selected will receive an invitation to join, and we will begin after Labor Day. Please email **Shannon Knight** [sknight@forsyth.k12.ga.us](mailto:sknight@forsyth.k12.ga.us) or **Suzie Dominique** [sdominique@forsyth.k12.ga.us](mailto:sdominique@forsyth.k12.ga.us) for more information.

### Science Olympiad

Science Olympiad is a club which will meet once a week after school. Students will choose two scientific ideas that interest them from the list of upcoming tournaments to practice and study throughout the year with their partners. Students will need to complete an application for the club and get a letter from a former teacher telling why they would be a good fit for the club (responsible, diligent, excited about science, etc.). If your child is interested in applying for the Science Olympiad, please complete the [Google Form](#) on or before **Friday, August 24th**.

Please understand that students will be chosen based on the applications which are kept confidential between the teachers. There will be a fee of \$100 to join the club. This will cover materials for our practice, t-shirts, and fees for county competitions. County competitions are held in late winter/early spring with the state competition in May for those schools that advance. Please understand that members will be required to attend these events and help their teammates at the competitions.

Applications are due to Mrs. Molter by Friday, September 7th and members will be selected after Labor Day. Please email **Jessica Molter** at [jmolter@forsyth.k12.ga.us](mailto:jmolter@forsyth.k12.ga.us) for more information.

**\*\*Please note that students will be allowed to try out for both teams, but will only be allowed to participate in Math Club OR Science Olympiad due to overlapping competition dates and practices.**
