Request for Permission: We, the undersigned student and the student's parent/guardian, apply for permission to participate in interscholastic athletics in the following sport(s):

[ ] Baseball / Softball	[ ] Cross Country	[ ] Lacrosse	[ ] Tennis	[ ] Gymnastics
[ ] Basketball	[ ] Football	[ ] Soccer	[ ] Track & Field	[ ] Other: _____
[ ] Cheerleading	[ ] Golf	[ ] Swimming	[ ] Wrestling	

General Requirements- We have read and discussed the general requirements for athletic eligibility. We understand that additional questions or specific circumstances should be directed to our student's coach, athletic director or principal. We understand that the FC Athletic Guidelines are available through the county website for review.

Risk of Injury- We acknowledge and understand that there is a risk of injury involved in athletic participation. We understand that the student-athlete will be under the supervision and direction of a FCSS athletic coach. We agree to follow the rules of the sport and the instructions of the coach in order to reduce the risk of injury to the student and other athletes. However, we acknowledge and understand that neither the coach nor FCSS can eliminate the risk of injury in sports. Injuries may and do occur. Sports injuries can be severe and in some cases may result in permanent disability or even death. We freely, knowingly, and willfully accept and assume the risk of injury that might occur from participation in athletics.

Release- In consideration of FCSS allowing the student-athlete to participate in athletics, we agree to release and hold FCSS, its athletic coaches and other employees free, harmless and indemnified from and against any and all claims, suits or causes of action arising from or out of any injury that the student-athlete may suffer from participation in athletics.

Insurance- FCSS requires parents to provide information pertaining to medical insurance coverage for all student athletes. Parents have the option to purchase school insurance (please see school athletic director) or to maintain coverage under parental insurance provider.

Check One: [ ] School Accident Insurance [ ] Name of Other Insurance Company	Policy No.
Address:	Group No.

CERTIFICATION AND MEDICAL AUTHORIZATION. We certify that all of the information provided by us on this form is correct. We agree to abide by state and local rules. If the student-athlete is injured while participating in athletics and FCSS is unable to contact the parent, we grant FCSS permission and authority to obtain necessary medical care and/or treatment for the student's injury. Treatment may include, but is not limited to first aid, CPR, medical or surgical treatment recommended by a physician. We accept the financial responsibility for such medical care or treatment.

We, the undersigned student and parent, have read this document and understand all of the expectations for athletic participation at my school.

"BLANKET" PERMISSION TO PARTICIPATE IN A SERIES OF SCHOOL SPONSORED FIELD TRIPS

Sport:_____ School Year:_____School: _____

I hereby request that_____(Student's Name-PLEASE PRINT): be allowed to participate in athletic team, band, orchestra, chorus, and/or any series of field trips related to one particular area of study or activity. I understand that transportation may or may not be provided by the Forsyth County School District (District). In the event transportation is not provided by the District, transportation will be the parent's responsibility.

All team members will ride to an event in school provided transportation with the team. Any athlete who arranges independent transportation to an event, without permission from the coach and the Athletic Director in advance, will be ineligible to compete in that event. All team members will return to their High School in the Forsyth County provided transportation unless a Travel Release form is completed by a parent/guardian (see the head coach). Athletes will only be released to their own parent/guardian from a contest. A parent/guardian must sign out the athlete from the coach at the contest site. If a student and his/her parent makes arrangements for private transportation, they shall not hold the local school, officers, employees or agents responsible for any injury or loss.

Detailed trip information, including destination, date, time of departure, time of return, purpose, and supervision, will be given to the parents/guardians prior to each trip in the series. (Exceptions must be approved by the School Director of Athletics and Principal).

If any emergency medical procedures or treatment are required by the student during the trip, I consent to the trip supervisor(s) taking, arranging for, and consenting to the procedures or treatment in his/her or their discretion.

In consideration of FCSS allowing the student-athlete to participate in athletics, we agree to release and hold FCSS, its athletics coaches and other employees free, harmless, and indemnified from and against any and all claims, suits or causes of action arising from or out of any injury that the student-athlete may suffer from participation in athletics.

NOTE: This form must be signed by student if the student is 18 years of age or older.

PARENTAL CONSENT

The undersigned grants consent to Denmark High School, and to their respective employees, for the child listed above to receive an assessment and the treatment of any injuries he/she may suffer during the school year. Injury treatment would include the application of modalities such as cold, heat, electrical muscle stimulation and/or ultrasound if necessary, as well as therapeutic exercises, to safely speed recovery and return to activity.

MEDICAL RELEASE

I, the undersigned, give permission for school officials, chaperons, or representatives of Denmark High School involved in the activity with my child to seek medical attention or render first aid if such attention is necessary in the discretion of the said person involved. In case of emergency, and when I cannot immediately be contacted, I give permission to the physician selected by the school officials to hospitalize, secure proper treatment, order injections, anesthesia, or surgery for my child.

ACKNOWLEDGEMENT OF RISK

Both the student and the parent/guardian should read this statement carefully. You should be aware that playing, practicing, conditioning and preparing for participation in any sport can be a dangerous activity involving risks of injury. The dangers and risks of sports participation include, but are not limited to: death, serious neck, head and/or spinal injuries which may result in complete or partial paralysis, brain damage, serious injury to virtually all internal organs, serious injury to virtually all bones, joints, ligaments, tendons, and other aspects of the body, general health and well being. Because of the dangers of participating in sports, the student should recognize the importance of following coaches' instructions regarding playing techniques, training, and other teams' rules and obey such instruction.

ASSUMPTION OF RESPONSIBILITY

It is my desire that my child participate in such athletic activities for which the within Consent to Treatment, Medical Release and Acknowledgement of Risk is being given by me as the parent or legal guardian of such child and as a precondition to my child's participation in such athletic activities. I fully understand the importance, consequences and affects of the within Consent to Treatment, Medical Release and Acknowledgement of Risk that I am entering into on behalf of myself and on behalf of my child, I have fully disclosed any medications, allergies or medical conditions that my child may have, and I assume full responsibility for any action taken in reliance upon the provisions hereof.

Georgia High School Association
Student/Parent Sudden Cardiac Arrest Awareness Form

SCHOOL: Denmark High School

1: Learn the Early Warning Signs

If you or your child has had one or more of these signs, see your primary care physician:

- Fainting suddenly and without warning, especially during exercise or in response to loud sounds like doorbells, alarm clocks or ringing phones
- Unusual chest pain or shortness of breath during exercise
- Family members who had sudden, unexplained and unexpected death before age 50
- Family members who have been diagnosed with a condition that can cause sudden cardiac death, such as hypertrophic cardiomyopathy (HCM) or Long QT syndrome
- A seizure suddenly and without warning, especially during exercise or in response to loud sounds like doorbells, alarm clocks or ringing phones

2: Learn to Recognize Sudden Cardiac Arrest

If you see someone collapse, assume he has experienced sudden cardiac arrest and respond quickly. This victim will be unresponsive, gasping or not breathing normally, and may have some jerking (Seizure like activity). Send for help and start CPR. You cannot hurt him.

3: Learn Hands-Only CPR

Effective CPR saves lives by circulating blood to the brain and other vital organs until rescue teams arrive. It is one of the most important life skills you can learn – and it's easier than ever.

- Call 911 (or ask bystanders to call 911 and get an AED)
- Push hard and fast in the center of the chest. Kneel at the victim's side, place your hands on the lower half of the breastbone, one on top of the other, elbows straight and locked. Push down 2 inches, then up 2 inches, at a rate of 100 times/minute, to the beat of the song "Stayin' Alive."
- If an Automated External Defibrillator (AED) is available, open it and follow the voice prompts. It will lead you step-by-step through the process, and will never shock a victim that does not need a shock.

By signing this sudden cardiac arrest form, I give Denmark ***High School permission to transfer this sudden cardiac arrest form to the other sports that my child may play. I am aware of the dangers of sudden cardiac arrest and this signed sudden cardiac arrest form will represent myself and my child during the 2024-2025 school year. This form will be stored with the athletic physical form and other accompanying forms required by the*** Forsyth County ***School System.***

Georgia High School Association
Student/Parent Concussion Awareness Form

SCHOOL: Denmark High School

DANGERS OF CONCUSSION

Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue. Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor "ding" to the head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term or long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continued participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further injury to the brain, and even death.

Player and parental education in this area is crucial – that is the reason for this document. Refer to it regularly. This form must be signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to the school, and one retained at home.

COMMON SIGNS AND SYMPTOMS OF CONCUSSION

- Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness
- Nausea or vomiting
- Blurred vision, sensitivity to light and sounds
- Fogginess of memory, difficulty concentrating, slowed thought processes, confused about surroundings or game assignments
- Unexplained changes in behavior and personality
- Loss of consciousness (NOTE: This does not occur in all concussion episodes.)

BY-LAW 2.68: GHSA CONCUSSION POLICY: In accordance with Georgia law and national playing rules published by the National Federation of State High School Associations, any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion shall be immediately removed from the practice or contest and shall not return to play until an appropriate health care professional has determined that no concussion has occurred. (NOTE: An appropriate health care professional may include licensed physician (MD/DO) or another licensed individual under the supervision of a licensed physician, such as a nurse practitioner, physician assistant, or certified athletic trainer who has received training in concussion evaluation and management.

a) No athlete is allowed to return to a game or a practice on the same day that a concussion (a) has been diagnosed, OR (b) cannot be ruled out.

b) Any athlete diagnosed with a concussion shall be cleared medically by an appropriate health care professional prior to resuming participation in any future practice or contest. The formulation of a gradual return to play protocol shall be a part of the medical clearance.

By signing this concussion form, I give Denmark ***High School permission to transfer this concussion form to the other sports that my child may play. I am aware of the dangers of concussion and this signed concussion form will represent myself and my child during the 2024-2025 school year. 2.67 **Practice Policy for Heat and Humidity**:

(a) Schools must follow the statewide policy for conducting practices and voluntary conditioning workouts (this policy is year-round, including during the summer) in all sports during times of extremely high heat and/or humidity that will be signed by each head coach at the beginning of each season and distributed to all players and their parents or guardians. The policy shall follow modified guidelines of the American College of Sports Medicine in regard to:
   (1) The scheduling of practices at various heat/humidity levels.
   (2) The ratio of workout time to time allotted for rest and hydration at various heat/humidity levels.
   (3) The heat/humidity levels that will result in practice being terminated.

(b) A scientifically-approved instrument that measures the Wet Bulb Globe Temperature must be utilized at each practice to ensure that the written policy is being followed properly. WBGT readings should be taken every hour, beginning 30 minutes before the beginning of practice.

WBGT	ACTIVITY GUIDELINES AND REST BREAK GUIDELINES
Under 82.0	Normal Activities - Provide at least three separate rest breaks each hour with a minimum duration of 3 minutes each during the workout.
82.0 - 86.9	Use discretion for intense or prolonged exercise; watch at-risk players carefully. Provide at least three separate rest breaks each hour with a minimum duration of 4 minutes each.
87.0 - 89.9	Maximum practice time is 2 hours. For Football: players are restricted to helmet, shoulder pads, and shorts during practice, and all protective equipment must be removed during conditioning activities. If the WBGT rises to this level **during** practice, players may continue to work out wearing football pants without changing to shorts. For All Sports: Provide at least four separate rest breaks each hour with a minimum duration of 4 minutes each.
90.0 - 92.0	Maximum practice time is 1 hour. For Football: no protective equipment may be worn during practice, and there may be no conditioning activities. For All Sports: There must be 20 minutes of rest breaks distributed throughout the hour of practice.
Over 92.0	No outdoor workouts. Delay practice until a cooler WBGT level is reached.

(c) Practices are defined as: the period of time that a participant engages in a coach-supervised, school-approved sport or conditioning-related activity. Practices are timed from the time the players report to the practice or workout area until players leave that area. If a practice is interrupted for a weather-related reason, the “clock” on that practice will stop and will begin again when the practice resumes.

(d) Conditioning activities include such things as weight training, wind-sprints, timed runs for distance, etc., and may be a part of the practice time or included in “voluntary workouts.”

(e) A walk-through is not a part of the practice time regulation, and may last no longer than one hour. This activity may not include conditioning activities or contact drills. No protective equipment may be worn during a walk-through, and no full-speed drills may be held.

(f) Rest breaks may not be combined with any other type of activity and players must be given unlimited access to hydration. These breaks must be held in a “cool zone” where players are out of direct sunlight.

(g) When the WBGT reading is over 86, ice towels and spray bottles filled with ice water should be available at the "cool zone" to aid the cooling process AND cold immersion tubs must be available for the benefit of any player showing early signs of heat illness. In the event of a serious EHI, the principle of “Cool First, Transport Second” should be utilized and implemented by the first medical provider onsite until cooling is completed (core temperature of 103 or less).
