

2023 EFHS AP EXAM REGISTRATION INFORMATION

Please read all of the information below concerning 2023 AP Testing.

Directions for Registration:

- All students must register for AP exams online. Siblings must register separately. Each student needs his/her own individual registration.
- **The AP Exam registration is a two step- two website- process again this year.**
- **STEP 1:** Students should have already enrolled into their AP course on the College Board (CB) website, using a join code provided by the teacher. If a student needs a join code, please contact your teacher or Mrs. McKee. Students **MUST** keep up with their CB account login information. We do not have access to student accounts.
 - Students **MUST** indicate in each AP course on the College Board website whether they will take the exam in May or not. Each account is defaulted to “Undecided” - students must choose “Yes” or “No”.
 - Link to the College Board website: <https://www.collegeboard.org/>
- **STEP 2:** College Board does not collect exam payments; it only collects the exam order information from students. **Therefore, students will also need to login to/create their Total Registration account to make payment.**
 - Total Registration is used each year to pay for PSAT and AP exams. Students should use the same account and login information. If students already have a TR account, they should look for the “Have you previously registered? Login here.” link.
 - If a student does not have a TR account, he/she must create an account. The account should use the student’s email address - not a parent’s email address.
 - Link to the TR website: <https://user.totalregistration.net/AP/110388>

Registration Deadline:

- **Registration for all exams begins on October 5th, 2022 and will conclude on Tuesday, October 25th, 2022.**

Cost for taking AP exams:

- For 2023 Testing, the College Board charges \$97.00 for each exam. In addition, students will pay a one-time administrative fee each year to offset the cost of testing materials, substitutes, etc. All high schools in Forsyth County charge a one-time fee of 25.00 regardless of how many exams a student takes.
- The cost for exams will be as follows:
 - 1 exam = \$122.00 (includes the exam fee of \$97.00 plus a one-time administrative fee of \$25.00)
 - 2 exams = \$219.00
 - 3 exams = \$316.00
 - 4 exams = \$413.00
 - 5 exams = \$510.00

Is there a late registration period and how much is the late fee?

- Students registering for exams in courses that begin in August will be assessed a \$40 late registration fee after October 25th. **This fee is charged by the College Board and cannot be canceled by the school.** The school does not charge additional fees for registering between October 25th – March 1st .

Does the State of Georgia pay for one STEM exam per student?

- Students enrolled in STEM classes will be allowed to take their first AP STEM exam at a reduced cost. STEM students will only pay the administration fee of \$25.00. Approval for any registration with a STEM exam will be required; therefore, STEM students cannot pay for exams at the time of registration.
- You must indicate at the time of test registration that you are taking a STEM exam to receive the 97.00 credit.
- When STEM students register on Total Registration, they will be asked if they are taking at least one STEM exam. This is called a “special waiver.”
 - Once a student has indicated s/he is taking a STEM exam, the registration is paused so that the school can verify this information. Once the fee waiver is verified, TR does NOT notify the student that they may now proceed with registration and make payment. Students need to go back into their TR accounts within 48 hours of initial registration to check on the status of their registration and make payment.

Is there a reduced cost for students with financial difficulty?

- Students who have applied and met Federal Free/Reduced Lunch criteria will receive up to two exams free of charge. They may receive additional exams at a reduced rate.
 - When they register for exams, students are asked if they meet Free/Reduced Lunch criteria. If the student indicates that they do meet Free/Reduced Lunch criteria, the registration process is paused until confirmation of this information.

FOR ALL VIRTUAL STUDENTS: You must register through your base school. Should you return to your base school, you must use a transfer code for AP Classroom and AP testing purposes. Please see your base school’s coordinator.
