

# Brandywine Fall Online Chess Club

This fall, **Championship Chess** will be teaching live online classes, combined with our web-based curriculum, the World of Chess. Studies show that learning chess improves math, reading and problem-solving and our methods connect these academic benefits to our classes. Join us for online learning and fun!

- Online classes will be taught by award-winning Author and Coach Steve Schneider and our top coaching staff.
- After each live class the students play each other online. If a child misses a class, they can take it any time as a streaming video on our Website.
- All students will have access to [The World of Chess](#), 24/7. The WOC is filled with instructional videos, downloadable information, interactive activities and game play. Students are engaged, have fun and earn *Chess for Success Achievement Cards* which are great motivators.
- Coaches will evaluate progress through Achievement Cards and Training Games students play in the World of Chess. Parents will also receive email updates on student progress.

**WHO CAN PLAY?** Any student in 1<sup>st</sup> grade and above. There will be 3 classes to choose from:

**Novice** for all Non-players and those with very limited chess skills

**Intermediate** for those with a fundamental knowledge of the game: some openings, endgames and tactics

**Advanced** for tournament players who have studied openings, endgames and tactics in greater depth

**NOTE:** To help you determine the best class for your child, we will offer a live online Championship Chess "Introduction to Fall 2020" in August. Please, email us at [Info@championshipchess.net](mailto:Info@championshipchess.net) to receive date, time and online access information. If it turns out that the class chosen doesn't fit your child's skill level, we can move your child to the proper class and he/she will have access to archived videos of any classes missed before the transition.
