Women's History Month (March 1-31) Resources

Since the early 1980's the United States has designated March as Women's History Month. During this month FCS is celebrating and recognizing the contributions and achievements women have made over the course of American history in a variety of fields. 2020 celebrates the centennial of the 19th amendment, which prohibits the state and the federal government from denying the right to vote to citizens of the United States on the basis of sex.
