

If you do not have a Parent Portal account please follow these steps:

1. Bring a photo identification to our office or the Hill Center Registration building to receive an Activation Key.

2. Use the Activation Key to create an account for Parent Portal.<https://campus.forsyth.k12.ga.us/campus/portal/forsyth.jsp?section=activate>

To access the district's learning platform "itslearning" please complete step 3 below.

3. Accounts created before 7:00 PM will be uploaded overnight into itslearning. The next day, return to the itslearning login page and click the Parent Login Support link found in the top-right corner of the page. This will initiate an email to a staff member to complete your account activation process. Upon activation you will receive an email to reset your itslearning password.

The parent view of itsLearning is somewhat limited. You will not have access to materials or bulletins but can use it to get a general idea of what needs to be done. This feature is especially useful if you have multiple children in the district. Consider, from time-to-time obtaining your student's own username and password to have full access to everything.
