

How to choose a PSC approved program for upgrading your teaching certificate:

1. Go to www.gapsc.com
2. On the right side of the home page look for “Policies and Guidelines” and under that heading click on “Certificate Upgrades”
3. On the page that opens you will see “Implementation Assistance Tools” and under that heading click on “Selected U.S. Institutions and Upgrade Eligibility Status”

This will allow you to search by state for colleges or universities that are approved by the PSC. It will also give you a web address to connect to that institution.

On this page you can also scroll down to “PowerPoint Presentations” click and open “General Upgrade Overview”. This was written by Rick Eiserman who is over this division of the PSC.
