

Free Internet Access Information:

There are some free options available for students to access the internet:

Xfinity hotspots are now open to anyone with no fee. This is a link to the information and you can search to see if there is a hotspot close to where you live: <https://wifi.xfinity.com/>.

Another option is Comcast is offering 2 months of internet free. Here is a link to those details: <https://corporate.comcast.com/press/releases/internet-essentials-low-income-broadband-coronavirus-pandemic>

You can also reach out to Lisa Bruce, lbruce@forsyth.k12.ga.us to see about getting a hotspot (pick up times are from 8:00-12:00).
